THE WORK OF CONGRESS.

PROBABLE PROGRAM OF BUSINESS
FOR THE PRESENT WEEK.

Several of the Pending Appropriation Bills Liable to Be Disposed of—Conference Committees Ready to Report.

Other Bills to Be Acted On If Possible.

WASHINGTON, Sept. 10.—The Senate today was ready for the disposition, this week, of at least two of the four appropriation bills pending in congress. The conferees having agreed to the fortification bill, the house of contention in the army appropriation bill—the heavy ordnance proposed by Senator Hawley—has been agreed to, and the adoption of the measure will quickly follow the passage of the army bill. The senate may receive and adopt the report of the conference committee, on the fortification bill before it resumes consideration of the

Following the disposition of the fortifications and Chinese bill, the senate will consider the consideration of the bills to make states of Washington, Dakota and Montana territories. It may also consider the general deficiency appropriation bill, which, with the sundry civil bill now pending in the house, will be the only regular annual appropriation bill. The sundry civil bill covers the outlays and army bills are one of the way.

This is District of Columbia day in the house of representatives, but members of the committee on appropriations will be in the senate for the consideration of the sundry civil appropriation bill, which has been pending for several days, to a finish. The amendments relating to the irrigation of arid lands, and the bill for the establishment of a civil post office in Washington

push the Oklahoma bill, and Mr. Whitworth intends to urge action upon his bill provided for the elimination of naval reserves, the earliest day possible.

Congressmen Scott was reconfirmed in the Erie district of Pennsylvania, despite the recommendation of the Erie district.

The Millionaire Party

There is at least one Republican paper which speaks with more zeal than discretion about its party's real candidate for the head of the government. In an article in the *Scranton Times* of last week, James G. Blaine, the St. Louis Star says that the "uncovered king" father was "born in a great world of the people" step with him all night and "drinks" some of his old Madeira, or good red wine, and "he is not a little plumed son, he is as fond of good eating and drinking and as much of a lady as any man in the world." He is a millionaire with millionaire Carney and hobnobbing with the English nobility, so as to prove it.—New York World.

The Paris census shows, 6,915 Americans, 14,701 English and 33,708 Germans.
